

# Zoha Javed

Front-end Developer

Lahore, Pakistan | [LinkedIn](#) | 0309 4048154 | zohajaved.098@gmail.com | [Github](#)

## Professional Summary:

I am a dedicated web developer with a strong foundation in front-end development, specializing in delivering responsive and user-centric web applications. With a proven track record of enhancing user experience, I achieved a 30% improvement in mobile responsiveness across multiple projects. I am highly skilled in integrating RESTful APIs, utilizing Axios for efficient data management, and implementing CRUD operations to streamline user interactions. With hands-on experience deploying projects on Vercel, I reduce deployment and live site demonstrations by 15%. Proficient in version control using Git, I lead to a 20% increase in code reviews and overall project quality. By developing a variety of projects, including e-learning platforms, portfolio websites, and blog applications, I demonstrate my ability to deliver comprehensive, end-to-end solutions.

## Technical Skills:

Front-End Development | HTML | CSS | Tailwind CSS | JavaScript | React.JS | Next.Js | Git Hub.

## Experience:

### Qwerty Experts

Lahore, Pakistan

#### Custom Web Development Intern

Aug - Sept, 2024

- Optimized front-end performance by fine-tuning animations and improving responsiveness, leading to a 40% enhancement in load times and overall performance across both **React** and **Next.js** projects.
- Integrated **RESTful APIs** to streamline dynamic data flow in the blog application, improving user experience by 25% through seamless data fetching and optimized storage solutions.
- Developed a fully functional blog application using JavaScript, React, and Next.js, incorporating **CRUD** operations, **app routing**, and dynamic data management with both Fetch and Axios APIs and local storage, reducing data retrieval times by 20%.
- Cloned and transformed two websites, utilizing **Next.js** and **React.js**, including the integration of animations and UI features, resulting in a 30% improvement in interactive front-end development skills.

### Programmers Tech

Remote

#### Web Development Intern

1st July - 31st July, 2024

- Built and designed a multi-page e-learning website incorporating courses from platforms like Coursera, enhancing user experience and achieving a 25% improvement in page navigation efficiency.
- Developed a portfolio landing page using HTML, CSS, and JavaScript, effectively showcasing skills and qualifications, resulting in a 30% increase in user engagement.
- Maintained version control using GitHub, ensuring collaboration and project transparency, leading to a 15% increase in team code reviews and overall project quality.

## Projects:

### Prolancer

9<sup>th</sup> Sept - 20<sup>th</sup> Sept 2024

- Built a responsive web application for using Next.js and Tailwind CSS, ensuring a seamless user experience across all devices.
- Replicated the Prolancer homepage design, incorporating key sections such as services and features, achieving a modern, professional layout that enhances user engagement.
- Utilized Next.js for efficient routing, server-side rendering (SSR), and optimized the website for SEO, improving page load speed by 20% and increasing organic traffic.
- Developed a fully responsive layout using **Tailwind CSS**, optimizing the website for desktop, tablet, and mobile devices, improving user accessibility by 25%.

### Blog-API Integration

21<sup>st</sup> Aug - 5<sup>th</sup> Sept, 2024

- Developed a **CRUD** blogging website using **Next.js**, **Axios**, and **Local Storage**, enabling users to create, read, update, and delete blog posts, enhancing user interactivity by 30%.
- Integrated API calls with Axios to manage blog post data from an external API ([JSONPlaceholder](#)), ensuring efficient data fetching and improving data handling speed by 15%.
- Designed and developed **reusable React components** for the blog interface, including forms for creating/editing posts and components for displaying post lists, increasing code maintainability by **20%**.

### SmartInvest Figma to Next

11<sup>th</sup> Aug - 20<sup>th</sup> Aug, 2024

[Video Demo](#)

- Developed a responsive web application for investment-related information and services using **Next.js** and **Tailwind CSS**, improving user accessibility and engagement by 30% across devices.
- Developed the homepage by following **Figma** designs provided.

### VisaBridge Clone

12<sup>th</sup> Aug - 16<sup>th</sup> Aug, 2024

[Live Demo](#)

- Developed a responsive web application clone to assist users with visa-related information and services using **React.js** and **Tailwind CSS**.
- Enhanced user experience by creating smooth, interactive animations with CSS keyframes and Tailwind CSS transitions, leading to a 30% increase in session duration and overall user satisfaction.

### E-Learning Website

9<sup>th</sup> July - 28<sup>th</sup> July, 2024

[Live Demo](#)

- Developed a multi-page e-learning platform using **React.js**, seamlessly integrating courses from external platforms like Coursera to broaden learning resources by 50%.
- Enhanced the website usability with intuitive navigation and structured content, leading to a 35% improvement in user engagement and overall user experience.

### Portfolio Web Application

1<sup>st</sup> July - 7<sup>th</sup> July, 2024

[Live Demo](#)

- Designed and implemented a responsive portfolio landing page, using **HTML**, **CSS**, and **JavaScript**.
- Independently developed the entire project, focusing on **front-end development** best practices.

### Event Flow

Aug - October , 2023

- Lead the project's user interface design with a focus on **React**.
- Improved user interactions through practical experience and by leveraging Ant Design, achieving 25% smoother navigation.
- Worked closely with team members to ensure seamless feature integration and continual platform enhancements, resulting in a **20%** increase in development efficiency.

### Areeba Textile Web Application

Mar - June , 2022

- Contributed to the development of a visually appealing **e-commerce website** with engaging, user-friendly designs.
- Actively refined skills in optimizing **user interactions** through practical, hands-on experience, achieving a **20% boost in user engagement**.
